

Pontoon Dock

Issue 08 – April 2018

A development by
linkcity

Welcome to the April issue of the Pontoon Dock development newsletter, looking at the latest progress achieved and upcoming milestones.

Progress to date

Significant progress has been made to date with the superstructure now well and truly underway. Block A podium slab (Level 1) is ongoing and upon completion will link all the blocks together at that level. Block B is the most advanced and 2nd floor walls / 2nd floor slab are making good progress. Finally, Block C ground floor walls are emerging which will complete the shell of the undercroft car park.

Forthcoming milestones

Key milestones that will really start to shape the site into a well organised unit are as follows:

The formation of the tarmac haul road will considerably decrease any dust in or out of the site whilst tidying the area significantly. This will also improve logistics as the site gets busier with internal and façade trades due to start imminently.

Construction of the internal stairs is ongoing and will allow access to the upper levels of the development. Waterproofing starts towards the end of the month (around the base of the 3 blocks at podium level) which will allow external façade trades to commence works in May.

Works will continue to the blocks, with walls and slabs being poured in continuous cycles to maintain programme and efficiency on site.

Environment protection is our concern – We have saved up to 18,000 litres of water.

We are committed to reducing our impact on the environment, especially by saving water. We are using a wheel wash machine which mainly uses rainwater collected from around the site.

**Tank capacity is 3,000 litres. A full cycle is 30 days. We have been using it for 6 months. For more information, please contact us.*

Events

The Open Doors National Campaign did not take place at our site because there were no registrations for site visits. However, we did have two local residents come along unofficially. Their visit was re-arranged for 22nd March and both were very impressed with the presentation.

**OPEN
DOORS**
Get into Construction

In April, we will be holding Property Maintenance and Waste Management presentations given by Bouygues UK professional experts in this field to London Design Engineering UTC students.

Your safety is our concern

Bouygues UK takes every precaution to keep you safe throughout the construction process.

At all times, our site will be secure and surrounded by fencing but building sites can be hazardous places:

- We dig deep holes
- We erect scaffolding
- We use large, noisy machinery

Please do not enter the construction site, unless it is part of a pre-arranged visit by our project team.

- Our operatives and staff are trained to work safely

Please help us to keep you and children safe, and take extra care during the school holidays.

**HEALTH
& SAFETY
A SHARED
COMMITMENT!**

Considerate Constructors Scheme

Bouygues UK firmly supports the aims of the Considerate Constructors Scheme. All of our sites are registered with the Scheme, and regular visits from the Considerate Constructors monitor will help us to ensure that we continue to improve our performance in showing full respect for:

- Appearance
- Community
- Environment
- Safety
- Workforce

Please let us know if you have any concerns.

Our contact details are on the newsletter that you should regularly receive or on the site hoardings.

If you would like further information regarding the Scheme you can visit their website at www.ccscheme.org.uk

Wants to speak to us?

For more information about the development, please go to <http://www.pontoondockdevelopment.com/>. In the next few months, we hope to update the website with news of developments in the project. The website also provides details for employment opportunities being created by the project, for those interested.

Standard site working hours are:

Monday to Friday:
8am-6pm

Saturday (if needed):
8am-1pm

There should be no noisy works before 8am.

Communication and Community Liaison

Bouygues UK is committed to working with the local community and keeping clear and open lines of communication throughout the construction phase. We have appointed **Suzi Mattos** as our resident liaison officer. Please do write to us should you have any questions or concerns.
